

Appendix A1 – Practical / Tutorial Workbook Integration

The following example showcases how Empathetics simulations can be imbedded into traditional anatomical learning resources such as a practical / tutorial manual.

Task

Complete the following worksheet.

1. Muscles by Groups

Use your anatomy resources and practical specimens/models to complete the table below:

Group	Muscles	Group Function
Axio-scapular muscles		
Rotator cuff		
Anterior arm compartment		
Posterior arm compartment		

Get your virtual tutor to check your answers or quiz you on the above!
